

## *AGEE* Cabinet Doors and Refacing

8708 East 41<sup>st</sup> Street Tulsa, OK 74145

918-622-6188

### THINGS TO DO BEFORE YOUR INSTALLATION DATE

#### PLEASE:

1. If possible, have garage accessible and cover items you don't want dust on.
2. Pre-plan your menu for the days the installer is there so you will not have to be in the kitchen.
3. Clear countertops. If countertops are being replaced, remove items and tape off door openings in case of excessive dust.
4. Be sure to remove the contents of your drawers and any china or stemware in the cabinets. If drawer boxes are being replaced, please empty the lower cabinets.
5. Remove curtains or knickknacks from around cabinets and areas where work will be done.
6. Remove pictures, clocks, etc. on adjoining walls.
7. Push items back three inches on bottom shelves of upper and lower cabinets.
8. Arrange for plumber and electrician, if needed. We are not licensed to install sinks or appliances.
9. Be sure pets and children will not have access to the kitchen work area or garage.
10. Please have payment available after job is complete.
